

The Mobile CCTV Tower

Introducing our CCTV tower: our premier, award-nominated mobile surveillance solution engineered to deliver uncompromising protection across the UK's most challenging environments.

Fast Deployment

24/7 Surveillance

Smart Security Powered By AI

Sustainable

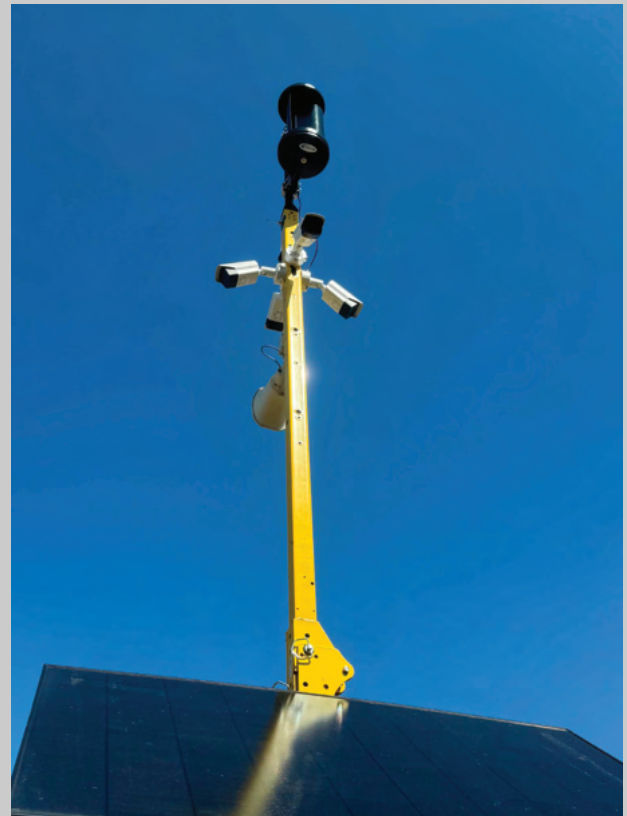

Why Choose Westgate Security Mobile CCTV Tower.

Our mobile CCTV tower is chosen for off-grid site security because it replaces noisy, high-maintenance generators with a highly efficient solar-hybrid power system that runs continuously year-round, even in harsh winter conditions.

The CCTV tower features a telescoping mast equipped with up to four intelligent cameras that eliminate blind spots and utilise smart AI analytics to minimise false alarms. If a genuine perimeter breach occurs, the tower acts as an active deterrent by instantly alerting a 24/7 monitoring station, triggering live audio voice-downs through on-board megaphones, and initiating rapid emergency response escalation with verified video evidence.

Key Features

- » 100% Off-Grid Reliability
- » AI Intelligent Threat Detection
- » HD Thermal Cameras
- » 6 Metre Mast
- » Live And Pre-Recorded Voice

The Mobile CCTV Tower

Key Benefits

- » **Continuous autonomous power:**
The advanced solar and wind hybrid system harvests natural energy to provide uninterrupted 24/7 operation, entirely independent of mains power or generators.
- » **Rapid, flexible deployment:**
Designed specifically for fast setup on remote, off-grid or highly demanding Temporary sites where traditional security infrastructure is impossible to install.
- » **Proactive remote monitoring:**
Links seamlessly with a dedicated, round-the-clock control room, enabling live threat verification, audio challenges and immediate deployment of emergency responses.

Solution For Every Sector

- » **Construction.**
Monitors site safety by day and unauthorised personnel at night.
- » **Highways & infrastructure.**
Monitors active traffic flow and protects overnight roadwork crews.
- » **Vacant Property & Land.**
Deters Illegal Fly-Tipping By Day And Squatters By Night.
- » **Industrial & warehousing.**
Audits daytime health and safety compliance and prevents night-time break-ins.
- » **Outdoor events & festivals.**
Manages daytime crowd safety and protects expensive equipment overnight.

The Ultimate Deterrent
